GLOBE WALK 2019

Globe Walkers will log enough kilometres to cross Canada from coast to coast to coast via our National Park system.

Remember...all physical activity can be counted.

SCOA Globe Walk

Make your activity count !

Challenge yourself and others who are 50+ to participate in a fun winter physical activity routine.

**Stroll or Roll, Hike or Bike,
Swim or Gym**

All physical activity counts toward a new Globe Walk goal for 2019.

We'll begin **January 2019** and count our steps/distance until **April 30, 2019**.

1300 steps = 1 kilometre

If your preferred physical activity can't be measured in steps, you can still count it:

30 minutes = 2 kilometres

At the end of each month give your team captain your step, time or distance totals. The team Captain will then submit the totals to the Globe Walk Coordinator.

The **Saskatoon Council on Aging** is a community leader promoting **positive aging for all, in an age-friendly community**

During community consultations for the Age-friendly Saskatoon Initiative, older adults identified the need for more physical activity and social opportunities during the winter months. The **Globe Walk Challenge** is a response to that need.
